Introduction to

SSS Overview

SSS Industrial Doors is a leading UK manufacturer specializing in high-quality industrial door solutions.

With over 50 years of combined experience, we provide tailored security, durability, and performance for a wide range of industries.

SSS Mission

Our doors are designed to meet the specific needs of each customer, ensuring exceptional reliability and long-lasting value.

From initial consultation to installation and ongoing support, we are committed to delivering outstanding products and service to help businesses operate smoothly and securely.

Opening Doors

for your future

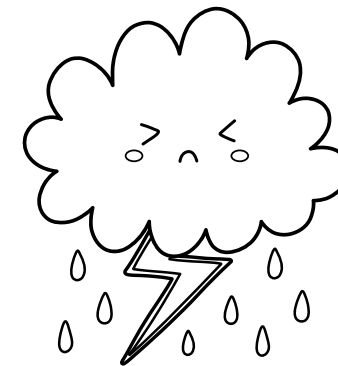

- Economical
- Durable

- Attractive

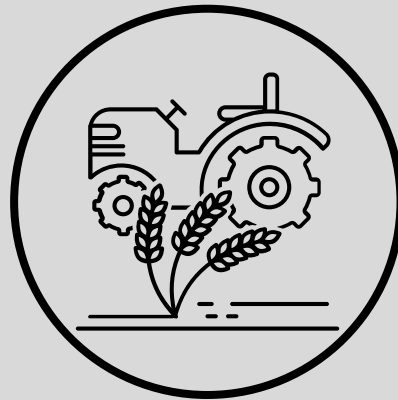

Based in North West
England
operating from
Lancashire
providing service
Nationwide!

Our Roller Shutters offer exceptional security and weather resistance, making them the perfect solution to protect your property from both intruders and the elements. Crafted from structural-grade galvanized steel with an anti-scratch laminated coating, these shutters are designed to endure tough conditions while maintaining their appearance over time. Suitable for industrial, commercial, and residential applications, they deliver superior strength and long-lasting durability. The galvanized steel construction prevents corrosion and rust, while the anti-scratch coating provides enhanced durability compared to traditional painted surfaces. With excellent wind resistance and a range of bespoke design options, we tailor each shutter to fit your property's unique requirements, including size, colour, and functionality.

Each door is custom-designed to suit your specific needs. As a UK manufacturer, we oversee every step of the process, from your initial enquiry to the final installation!

Enhanced Security

Experience peace of mind with our robust design, specifically crafted for high-security environments.

Our advanced features ensure maximum protection, providing you with confidence in your safety and security measures.

Durability & Longevity

Built to endure, our products are designed to withstand heavy use, adverse weather conditions, and tampering.

With a focus on resilience, you can rely on our solutions for lasting performance that stands the test of time.

Customization Options

Discover the perfect fit for your needs with our extensive customization options. Available in a variety of colours, finishes, and sizes, our products can be tailored to match your unique style and requirements, making them a seamless addition to any space.

Energy Efficiency

Manage your energy consumption with our 75mm shutters, designed to enhance temperature regulation and savings.

Though not insulated, they effectively protect against the elements, ensuring a comfortable environment and supporting energy efficiency. Choose our products to help reduce energy costs while being environmentally conscious.

Low Maintenance

Simplify your life with our easy-to-operate and maintain solutions. Our products feature a long-lasting finish, ensuring they remain in pristine condition with minimal effort, allowing you to focus on what truly matters.

We have the 77mm Lath available in various styles and finishes.

You can choose from Galvanised (without finish) and Plastisol (with a Leather-grain Emboss Surface finish).

The styles available include:

- Standard
- Perforated (featuring small punched holes)
- Punched Brick Bond (rectangle holes arranged in a brick pattern)
- Punched In Line (rectangle holes aligned in a linear pattern)

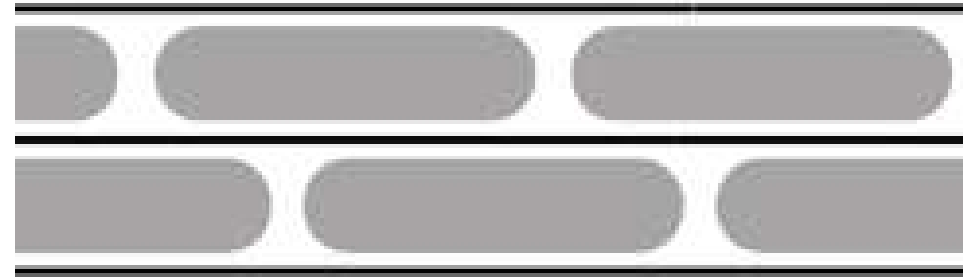

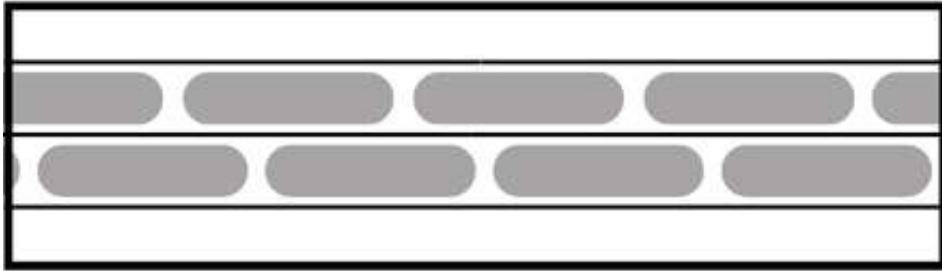

Galvanised Perforated Lath

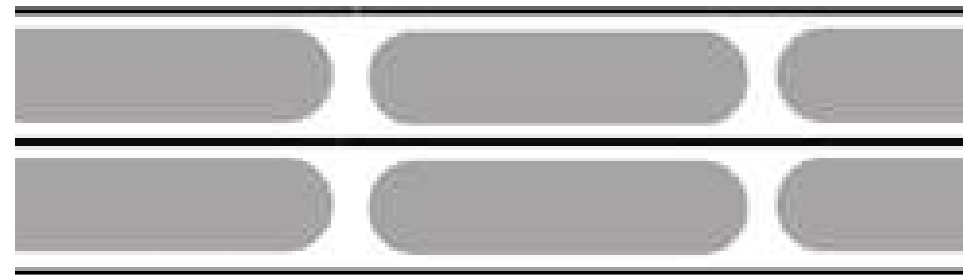

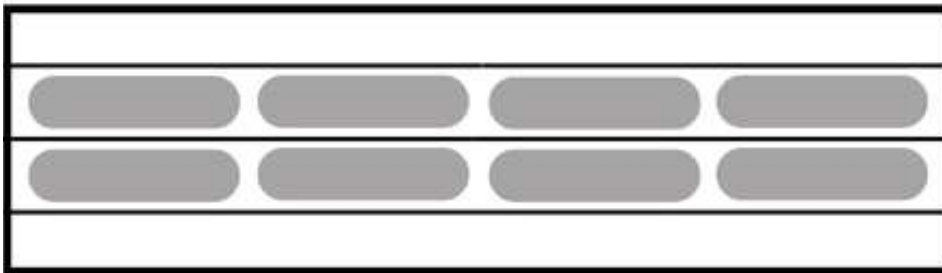

Standard Plastisol Lath

Brick Bond

The brick bond style describes the arrangement of rectangular punched holes in a staggered pattern, offering both security and visibility for your shutter door.

In-Line

The In-Line style features rectangular punched holes arranged symmetrically in a straight line, one directly above the other, without any staggering.

SSS Industrial Doors supplied five vibrant commercial **75mm perforated shutter doors** for a sheltered outdoor area at an educational facility, enhancing the play experience for children. These colourful shutters were designed to provide a safe and enjoyable space, allowing the little ones to enjoy outdoor time even during inclement weather. The **top sections of the shutters are perforated**, ensuring that natural light and fresh air flow into the play area, creating a bright and inviting environment. With these innovative doors, the nursery can offer a perfect blend of protection and openness, fostering creativity and exploration while keeping the children safe and comfortable.

Compliance

Compliance for SSS Industrial Doors involves adhering to relevant industry standards and regulations to ensure safety, functionality, and durability. This includes meeting specifications for materials, design, and installation, as well as conducting regular maintenance and inspections. By following guidelines set by organizations such as the Occupational Safety and Health Administration (OSHA) and local building codes, SSS Industrial Doors guarantees that their products provide optimal performance while minimizing risks associated with industrial operations. Additionally, SSS Industrial Doors is UKCA and CE compliant, demonstrating their commitment to meeting the stringent safety and quality standards required in the UK and European markets. This commitment to compliance not only enhances the safety of users but also fosters trust and reliability in their offerings.

Technical Specifications

1. Material:
 - Made from high-grade steel, aluminium, or PVC.
2. Thickness:
 - Panel thickness of 75mm.
3. Insulation:
 - CFC-free polyurethane foam insulation for thermal efficiency.
 - Optional double-skinned panels for increased insulation.
4. Dimensions:
 - Customizable width and height, generally ranging from 1m to 5m in width and up to 5m in height.
5. Weight:
 - Varies based on material and dimensions; generally between 50 kg to 200 kg.
6. Finish Options:
 - Powder-coated, anodized, or painted finishes available in multiple colours.
7. Operation:
 - Manual (hand-crank) or electric motor operation.
 - Optional remote control or automated systems.
8. Safety Features:
 - Safety brake system to prevent free fall.
 - Photocell safety sensors to detect obstructions.
9. Guide Rails:
 - Heavy-duty tracks and guide rails for smooth operation.
 - Standard sizes include 40mm or 50mm width.
10. Locking Mechanism:
 - Secure locking systems, including padlockable options.
11. Maintenance:
 - Low maintenance requirements with self-lubricating hinges and rollers.
12. Wind Resistance:
 - Designed to withstand specific wind load ratings (e.g., Class 1 to Class 4).
13. Certification:
 - Compliance with relevant safety and building regulations.

Step 1: Quoted

Our process begins with a detailed quote, ensuring transparency and alignment with your project needs.

Step 2: Drawn & Designed

Next, our expert team creates custom drawings and designs tailored to your specifications.

Step 3: Manufactured

Each door is meticulously manufactured using high-quality materials and advanced techniques for durability.

Step 4: Delivery/Collection

Once completed, the doors are carefully packed for safe delivery or collection.

Step 5: Site Induction

We conduct a thorough site induction to familiarize our team with the installation environment and safety protocols.

Step 6: Door Installation

Our skilled technicians install the doors efficiently, ensuring a perfect fit and seamless operation.

Step 7: Demonstration

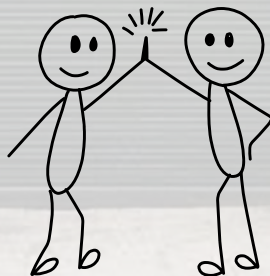

Finally, we provide a comprehensive demonstration on door operation, ensuring you are confident in using your new installation.

At SSS Industrial Doors, we prioritize the longevity and functionality of our shutter doors through comprehensive maintenance services. Our dedicated team provides routine inspections and timely repairs to ensure your doors operate smoothly and efficiently.

In addition to maintenance, our after-sale support is designed to address any concerns you may have post-purchase. We offer expert guidance and assistance, ensuring that you have access to the necessary resources for optimal performance. With SSS Industrial Doors, you can rest assured that your investment is backed by exceptional service and support.
